## BONDSTRAND PIPING + COMPOSEAL VALVES

*"A Match Made for Your Ships"*

- ✓ Eliminate Need for Extra Pipe Hangers
- ✓ Tremendous Weight Savings
- ✓ No Painting Required
- ✓ Long Life-Cycle

### BONDSTRAND PIPING

With this technology your scrubber piping system will be in compliance with strict international regulations, resistant to the aggressive corrosive environments at high temperatures, and be as light-weight as possible.

### Fiber Glass Systems

### FEATURE

BONDSTRAND  
Glass Reinforced Piping

### COMPOSEAL VALVE

### COMPOSEAL VALVES

**ABS Approval**

**Non-Corrosive**

**Light-Weight**

**Quick Availability**

**Long Life-Cycle**

**Reasonably Priced**

### ABS APPROVED!

Introducing a resilient seated butterfly valve with valve body and disc in high engineered composite material providing excellent internal and external chemical resistance.

The CompoSeal is the ideal valve to use with Bondstrand piping applications.

**JA MOODY IS THE NATIONAL DISTRIBUTOR**  
for Pentair Valves & Control Products, Curtiss-Wright Nu-Torque Actuator Products, NOV Glassfiber Reinforced Epoxy Piping, Montreal Bronze Engineered Products and Viega Pro Press Piping.

JA Moody has been supplying the marine industry with valves and actuators since the early 1950's.
